

# Sikorsky **BLACK HAWK A to L** **Helicopter Upgrades**

*High value solution to maximize aircraft performance*

# BLACK HAWK A to L Upgrades

## Extended Service Life

---

Over the past 30 years, the Sikorsky UH-60 BLACK HAWK helicopter has proven to be one of the most reliable and capable multi-mission aircraft.

In order to meet today's mission requirements, Sikorsky Aerospace Services, the leader in aftermarket support solutions, offers both standard and non-standard BLACK HAWK A to L helicopter upgrades. These upgrades provide you with an affordable option to add new life to your existing fleet, no matter the configuration of your BLACK HAWK helicopter.

# A to L Upgrades

## Superior Performance

Completing a total airframe conversion, the BLACK HAWK A to L upgrades incorporate improvements in the operational availability and reliability of the aircraft.

### With the A to L Upgrades, You Will Benefit From:

- » Improved performance
- » Increased mission readiness
- » Reduced maintenance and support costs
- » Extended service life

# Chase Field Operations Center

## Center of Excellence for A to L Helicopter Upgrades

Complete BLACK HAWK A to L helicopter upgrades will be done at the Chase Field Operations Center, Sikorsky Aerospace Services' Military Maintenance, Repair, and Overhaul (MRO) facility. The highly trained and skilled team at the facility is able to utilize an extensive supply chain to improve aircraft availability and drive down costs.
